## Introduction

This fact sheet describes how users of the Facilities MRO contract with Grainger can easily identify products that have verifiable environmental benefits.

## How can you find green products on the Grainger website ([www.grainger.com](http://www.grainger.com))?

Grainger identifies its environmentally preferable products with a "green leaf" icon on its website and catalog. Clicking the green leaf, or checking the "Tech Specs" will reveal the products certifications or other environmental tributes.

## Searching for Green Products

1) Products can be filtered by selecting "Green" as a sorting category when performing online searches.

2) For information on Grainger's "green" product categories, click the "Resources" tab on the home page, and then scroll down to "[Green Resources](#)".

3) You can request a free copy of Grainger's stand-alone [green product catalog](#) from the "Green Resources" page.
