Vantage Electric Vehicles

PERFORMANCE
Brushless 3 phase induction AC motor.
Battery life of up to 30,000 miles.
Power assisted disc and drum brakes — powerful enough to make a quick stop.
AC electric motor with plenty of torque and is constructed for performance and durability.

COMFORT
Spacious vehicles that offer the best of both worlds: Vantage Vehicles levels of first-class features, comforts and style, the best in headroom and legroom along with rows of seating and seemingly endless cargo/passenger configurations.
Heating and defrosting system.
Quite and comfortable cab automotive style interior.
Optional air conditioning.

SAFETY
3-point ELR front seat belts.
Laminated front windshield safety glass.
Heavy-duty front/rear suspension components and differential.
Large wheel base heavy-duty ladder frame that distributes power to all four wheels.
Full complement of headlights, taillights, fog lights, blinkers and emergency flashes.
There is nothing quite like the Vantage GreenTruck and GreenVan low speed vehicle class. These singular vehicles define where electric vehicles are headed. And in the case of the eco-friendly Vantage Vehicle class, the destination has always been the same — innovative technology, along with the ultimate in safety, comfort and performance.

SAVINGS
90% Maintenance-free with years and years of trouble-free service.
Significantly reduced operating costs.

EFFICIENCY
Zero emissions.
No gas required.
Models

GreenTruck | EVX1000
No Electric Low Speed Vehicle can compete with the Greentruck class because it is unlike any other. From contour engineered seating, state-of-art features, functions and design, to offering the best in headroom and legroom. Comfort!

GreenTruck | EVR1000
Throughout the overall design the heavy-duty ladder type frame creates a smooth ride and gives the crew cab truck more rigidity to handle various tasks. Versatility!
**GREENVAN | EVP1000**

The GreenVan Cargo and Passenger are refined and spacious vehicles that offer the best of both worlds: Vantage Vehicle levels of first-class features, comforts and style along with rows of seating and seemingly endless cargo/passenger configurations. Performance!

**GREENVAN | EVC1000**

Throw in large sliding doors that open wide for easy entrance and exit, a rear hatch door that opens high and wide making loading and unloading safe and easy, and you've got a van that's everything a van should be. Efficient!

GAS VEHICLES

Save Gas WITH OUR LOW SPEED VEHICLES

TruckAll™ | VanGo™
COMFORT
No Low Speed Vehicle compares to the Vantage Vehicle because the Vantage Vehicle offers the comforts of a full size automobile such as adjustable contoured seats, standard heater/defroster, standard AM/FM radio, and optional Air Conditioning.

VERSATILITY
The Vantage Vehicle is the most versatile Low Speed Vehicle because the truck bed can be customized to fit the customer's needs. Besides the standard truck bed, some of the most popular truck bed options are the scissor lift, dump truck, tool rack, ladder rack, and camper shell.
EFFICIENT

The Vantage Vehicle VanGo™ can be equipped with rows of seating for movement of passengers or customized racks for efficient cargo transportation. The VanGo™ comes standard with a large sliding side-door for easy entrance and exit, and a high and wide hatch rear-door for safe loading and unloading.

PERFORMANCE

The TruckAll™ and VanGo™ quickly reach 25 miles per hour and obtain an estimated 32 miles per gallon providing the ultimate Low Speed Vehicle performance.* Combine the comforts of a full sized automobile and the efficiency of a low speed vehicle and cut your fleet’s fuel expense. With a wide selection of options and accessories, we can build the perfect truck or van for almost any application.

*Estimated mileage depends on factors such as load.

No: ____________________ (office use)

1. Term of Coverage
   - The Westward Warranty provides coverage for each new GO-4 gasoline ride-on utility vehicle, parts and equipment on the vehicle, is not to be transferred to any other person or vehicle, or to be returned for any reason other than warranty repair or replacement of defective parts or equipment.
   - The warranty period begins on the date of delivery of the vehicle.
   - The warranty period is for a period of three (3) years or 36,000 miles, whichever comes first.
   - The warranty is transferable to the first owner.

2. To Receive Warranty Service
   - If any defects in material or workmanship are discovered, contact the Westward dealer where the vehicle was purchased or the factory warranty representative designated by Westward.
   - A detailed description of the problem must be documented and recorded by the Westward dealer.
   - Parts and equipment covered under the warranty are those that are subject to normal wear and tear.
   - Any repairs or replacements made under the warranty are the responsibility of the Westward dealer.

3. Items Covered by the Westward Warranty
   - The Westward Warranty is limited to the replacement of defective parts or equipment.
   - The vehicle or parts are not guaranteed to be free from defects in material or workmanship.

4. Warranty Items Excluded from Westward Warranty
   - The Westward Warranty does not cover:
     - Normal wear and tear of vehicle or parts.
     - Damage caused by misuse or neglect.
     - Damage caused by collision or other accidents.
     - Damage caused by lack of maintenance or proper care.
     - Damage caused by improper use or operation.

5. The Westward Warranty is only available to the original purchaser of the vehicle.

6. The Westward Warranty is only available to the original purchaser of the vehicle for a period of three (3) years or 36,000 miles, whichever comes first.

7. The Westward Warranty is only available to the original purchaser of the vehicle and is not transferable to any subsequent owner of the vehicle.

Battery: WARRANTY STATEMENT
Usbattery.com 800-695-0945

U.S. Battery Manufacturing Company guarantees its products in Vantage Vehicles to be free of any manufacturing defects for a period of one (1) year. The free replacement one-year period begins at date of shipment from Vantage Vehicles, not when the vehicle is put into service. The limited warranty only covers defects in material and workmanship. No labor or transportation expenses are included in this limited warranty.

Any implied warranty of merchantability or fitness for a particular purpose shall be void and excluded subsequent to one-year from the date of purchase. The replacement of the battery is the exclusive remedy under this written warranty or any implied warranty. U.S. Battery Manufacturing Company makes no other representation or warranty of any kind and no representative, employee, distributor or dealer has the authority to make or imply any representation, promise, or agreement, which in any way varies the terms of this limited warranty. All batteries being submitted for warranty must be returned to the place of purchase for testing and evaluation. On-site service would be available in most locations at an additional charge. Service charges will vary from location to location, distance traveled and number of batteries involved.

The provisions of this limited battery warranty shall not apply to failure due to:

Abuse or neglect such as improper fluid levels, loose wiring, or rusted or corroded hardware; Lack of proper maintenance; Damage caused by improper installation of the battery; Neglect, breakage,
freezing, fire, explosion, wreckage, the addition of any chemical, or the operation of the battery in an uncharged condition (below half-charge – 1.200 specific gravity); and a battery charged by systems other than the original equipment type battery charger.

THIS BATTERY IS INTENDED TO BE USED BY PERSONS WITH TRAINING AND EXPERIENCE WITH BATTERIES. ANY OTHER USE RENDERS THE LIMITED WARRANTIES EXPRESSED HERIN AND ALL IMPLIED WARRANTIES NULL AND VOID AND SAME ARE HEREBY EXCLUDED.

ALSO EXCLUDED FROM THIS LIMITED WARRANTY ARE ANY AND ALL INCIDENTAL OR CONSEQUENTIAL DAMAGES INCLUDING BUT NOT LIMITED TO, LOSS OF USE OR REVENUE, LOSS OF TIME, INCONVENIENCE OR ANY OTHER ECONOMIC LOSS.

Warranty Limitations

U.S. Battery’s liability shall be to replace a defective battery. Replacement shall mean furnishing a new battery or used battery with sufficient life to complete the warranty term, which is incidental or reasonably equivalent to the warranted product at no cost to the purchaser during the replacement period.

Damage not resulting from a defect in materials or workmanship or which occurs due to abuse or neglect (including failure to provide reasonable and necessary maintenance), accident or alteration is excluded from this limited warranty.

SPECIFIC EXCLUSION from this warranty shall include all parts and labor charges due to normal wear and routine maintenance, including fuses and adjustments. Any transportation cost charges to and from an authorized VANTAGE VEHICLE INTERNATIONAL, INC. Dealer for service or in performing field service is also excluded from this warranty.

GENERAL EXCLUSION from this warranty shall include any failure caused by:

1. Wear items such as brake linings, wiper inserts, seat coverings and door trim for cosmetic deterioration, charge cords for wear or damage, light bulbs
2. Lack of proper maintenance or storage as outlined in the owner’s manual.
3. Use for any purpose other than outlined in the owner’s manual. Specifically damage caused by abuse, overloading or impact with curbs or potholes.
4. Accident or collision damage not resulting from a defective part.
5. Modifications or alterations including the installation of parts or accessories not approved by VANTAGE VEHICLE INTERNATIONAL, INC.
6. Fading, rust or deterioration due to exposure or ordinary wear and tear
7. Acts of GOD or events over which VANTAGE VEHICLE INTERNATIONAL, INC. has no control.
8. Any or all incidental or consequential damages including, but not limited to, loss of use, loss of revenue, loss of time or inconvenience.
9. Damage to batteries due to abuse, neglect, over-discharging, or leaving the vehicle in storage without regular charging
10. Flood, or driving the vehicle through water deep enough to flood the electrical components
11. Tires wear, damage or puncture
12. Repairs improperly performed or replacements improperly installed.
13. Damage caused by loads carried in excess of the GVWR or accessory beds which exceed the rear axle weight rating. This includes overloading of units equipped with the dump bed option.
14. Damage caused by continued operation with a known or obvious defect such as excessive tire wear when an alignment is needed.

OWNERS OBLIGATIONS: The following obligations must be fulfilled by owner to maintain the validity of the VANTAGE VEHICLE INTERNATIONAL, INC. warranty.

1. The owner must deliver the vehicle to an authorized VANTAGE VEHICLE INTERNATIONAL, INC. dealer or equally qualified service facility for inspection, maintenance services and adjustments according to the Periodic Maintenance chart in the owner's manual. The inspection, maintenance service and adjustments are to be performed at owner's expense.

2. The owner must give notice to an authorized VANTAGE VEHICLE INTERNATIONAL, INC. dealer of any and all defects within ten (10) days after discovery, and the owner must deliver the vehicle to their authorized VANTAGE VEHICLE INTERNATIONAL, INC. dealer for inspection and repairs.

LIMITATION OF LIABILITY AND REMEDY Manufacturer shall not be liable for consequential, indirect, or incidental damages, or for any service not expressly provided herein.

The Warranty Period for all parts and components of the Vehicle other than Deep Cycle Batteries shall commence on the date of delivery to the Purchaser’s location or the date on which the Vehicle is placed in Purchaser-requested storage. The Warranty Period for Deep Cycle Batteries shall commence on the earliest of the date: (a) of Vehicle delivery to the Purchaser’s location, (b) on which the Vehicle is placed in Purchaser-requested storage or (c) that is one (1) year from the date of sale or lease of the Vehicle by the Company to an authorized company dealer or distributor. Parts repaired or replaced under this Limited Warranty are warranted for the remainder of the length of the Warranty Period. This Limited Warranty applies only to the Purchaser and not to any subsequent purchaser or lessee without the prior written approval of the Customer Care / Warranty Department.

EXCLUSIONS: Specifically EXCLUDED from this Limited Warranty are:

- routine maintenance items, normal wear and tear, cosmetic deterioration or electrical components damaged as a result of fluctuations in electric current;
- damage to or deterioration of a Vehicle, part or battery charger resulting from inadequate maintenance, neglect, abuse, accident or collision;
- damage resulting from installation or use of parts or accessories not approved by Company, including but not limited to subsequent failures of the Vehicle, other parts or the battery charger due to the installation and/or use of parts and accessories not approved by Company;
- warranty repairs made by other than a Company branch or an authorized and qualified Dealer designee. Warranty repairs by other than a Company branch or an authorized and qualified Dealer or designee shall void the Limited Warranty;
- damage or loss resulting from acts of nature, vandalism, theft, war or other events over which Company has no control;
- any and all expenses incurred in transporting the Vehicle to and from the Company or an authorized and qualified Dealer, distributor or designee for warranty service or in performing field warranty service; and
- any and all expenses, fees or duties incurred relative to inbound freight, importation, or customs.

THIS LIMITED WARRANTY MAY BE VOIDED OR LIMITED AT THE SOLE DISCRETION OF COMPANY IF THE VEHICLE AND/OR BATTERY CHARGER:

- shows indications that routine maintenance was not performed per the Owner’s Manual, including but not limited to proper tire inflation, lack of charging, inadequate battery watering, use of contaminated water, loose battery hold downs, corroded battery cables and loose battery terminals;
- lacks an adequate number of operating battery chargers, uses unapproved battery chargers or uses extension cords with battery chargers;
- gasoline powered Vehicles fueled with unleaded gasoline containing more than 10% ethanol, E85 ethanol fuel or other non-recommended fuels, contaminated gasoline or other non-recommended lubricants;
- diesel powered Vehicles fueled or started with gasoline, starter fluid, ether or more than 5% biodiesel;
- shows indications that the speed governor was adjusted or modified to permit the Vehicle to operate beyond Company specifications;
- shows indications it has been altered or modified in any way from Company specifications, including but not limited to alterations to the speed braking system, electrical system, passenger capacity or seating;
- has non-Company approved electrical or electrical energy consuming devices installed on a gasoline or diesel powered Vehicle without installation of a heavy duty 12V battery;
- adjustments are made to the injection pump fuel delivery system or CVT system; or
- is equipped with non-standard tires not approved by the Company.

USE OF NON-APPROVED COMPANY PARTS AND ACCESSORIES: THIS LIMITED WARRANTY IS VOID WITH RESPECT TO ANY PROPERTY DAMAGE OR ADDITIONAL ENERGY CONSUMPTION ARISING FROM OR RELATED TO PARTS OR ACCESSORIES NOT MANUFACTURED OR AUTHORIZED BY COMPANY, OR WHICH WERE NOT INSTALLED BY COMPANY, ITS DEALERS OR DISTRIBUTORS, INCLUDING BUT NOT LIMITED TO GPS SYSTEMS, COOLING AND HEATING SYSTEMS, FOR FURTHER INFORMATION, CALL 1-800-774-3946, GO TO WWW.CUSHMAN.COM, OR WRITE TO TSV DIVISION OF TEXTRON INC., ATTENTION: TSV CUSTOMER CARE / WARRANTY DEPARTMENT, 1451 MARVIN GRIFFIN ROAD, AUGUSTA, GEORGIA 30906 USA.

TSV P/N 646529G17--
COMMUNICATION SYSTEMS, INFORMATION SYSTEMS, OR OTHER FORMS OF ENERGY CONSUMING DEVICES WİRED DIRECTLY OR INDIRECTLY TO THE VEHICLE BATTERIES.

REMEDY: Purchaser’s sole and exclusive remedy under this Limited Warranty in the event of a defect in material or workmanship in the Vehicle, any part or component, or battery charger during the applicable Warranty Period is that Company will, at its sole option, repair or replace any defective parts. If Company elects to repair or replace a defective part, Company may at its discretion provide a factory reconditioned part or new component from an alternate supplier. All replaced parts become the sole property of Company. This exclusive remedy will not be deemed to have failed of its essential purpose so long as Company has made reasonable efforts to repair or replace the defective parts.

DISCLAIMER: THIS LIMITED WARRANTY IS THE SOLE AND EXCLUSIVE WARRANTY PROVIDED FOR THE VEHICLES AND BATTERY CHARGER AND IS MADE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ALL SUCH OTHER WARRANTIES BEING EXPLICITLY DISCLAIMED.

LIABILITY LIMITATIONS: IN NO CASE SHALL COMPANY BE LIABLE FOR INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES, INCLUDING BUT NOT LIMITED TO DEATH, PERSONAL INJURY OR PROPERTY DAMAGE, ARISING FROM OR RELATED TO ANY ALLEGED FAILURE IN A VEHICLE OR BATTERY CHARGER, OR ANY DAMAGE OR LOSS TO THE PURCHASER OR ANY THIRD PARTY FOR LOST TIME, INCONVENIENCE OR ANY ECONOMIC LOSS, WHETHER OR NOT COMPANY WAS APPRISED OF THE FORSEEABILITY OF SUCH DAMAGES OR LOSSES. THE RIGHT OF PURCHASER TO RECOVER DAMAGES WITHIN THE LIMITATIONS SET FORTH IN THIS SECTION IS PURCHASER’S EXCLUSIVE ALTERNATIVE REMEDY IF THE LIMITED REMEDY OF REPAIR OR REPLACEMENT OF THE VEHICLE FAILS OF ITS ESSENTIAL PURPOSE. THE PARTIES AGREE THAT THIS ALTERNATIVE REMEDY WILL BE ENFORCEABLE EVEN IF THE LIMITED REMEDY OF REPAIR OR REPLACEMENT FAILS OF ITS ESSENTIAL PURPOSE. ANY LEGAL CLAIM OR ACTION ARISING THAT ALLEGES BREACH OF WARRANTY MUST BE BROUGHT WITHIN THREE (3) MONTHS FROM THE DATE THE WARRANTY CLAIM ARSES. THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS AND YOU MAY HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE. SOME STATES DO NOT ALLOW THE EXCLUSION OF INCIDENTAL DAMAGES OR LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY MAY LAST, SO THE ABOVE EXCLUSIONS AND LIMITATIONS MAY NOT APPLY TO YOU.

WARNING: ANY MODIFICATION OR CHANGE TO THE VEHICLE OR BATTERY CHARGER WHICH ALTERS THE WEIGHT DISTRIBUTION OR STABILITY OF THE VEHICLE, INCREASES THE VEHICLE’S SPEED, OR ALTERS THE OUTPUT OF THE BATTERY CHARGER BEYOND FACTORY SPECIFICATIONS, CAN RESULT IN PROPERTY DAMAGE, PERSONAL INJURY OR DEATH. DO NOT MAKE ANY SUCH MODIFICATIONS OR CHANGES. SUCH MODIFICATIONS OR CHANGES WILL VOID THE LIMITED WARRANTY. COMPANY DISCLAIMS RESPONSIBILITY FOR ANY SUCH MODIFICATIONS, CHANGES OR ALTERATIONS WHICH WOULD ADVERSELY IMPACT THE SAFE OPERATION OF THE VEHICLE OR BATTERY CHARGER.

DEEP CYCLE BATTERY WARRANTY LIMITATIONS, CONDITIONS AND EXCEPTIONS:
- To be eligible for this limited battery warranty, the warranty must be activated within forty-five (45) days of delivery of the Vehicle at the following web site: http://ezgo.smartmanual.biz. A Purchaser who is unable to log onto the website should call or write the Customer Care / Warranty Department using the contact information below or Purchaser’s local dealer or distributor within forty-five (45) days of delivery of the Vehicle.
- Claims for battery warranty replacement require specific testing, as specified by the Customer Care / Warranty Department. Company, or an authorized Company dealer or distributor, should be contacted to obtain a copy of the required tests, which must be performed and corrected for temperature, based upon BCI (Battery Council International) recommendations.
- NON-FACTORY INSTALLED PARTS OR ACCESSORIES INSTALLED DIRECTLY TO LESS THAN THE COMPLETE VEHICLE BATTERY PACK WILL VOID THE WARRANTY FOR THE ENTIRE BATTERY PACK.
- ALL NON-FACTORY INSTALLED ACCESSORIES REQUIRE THE INSTALLATION AND USE OF A COMPANY APPROVED DC TO DC CONVERTER THAT USES ENERGY FROM ALL BATTERIES.
- Electric Vehicle storage facilities must provide the following:
  - ample electrical power to charge all Vehicles and allow the charger to shut off automatically;
  - battery chargers must each have an independent dedicated 15 amp circuit;
  - each battery charger must be connected to its circuit with at minimum a NEMA 15-5R three-pin receptacle;
  - five (5) air exchanges per hour in the charging facility; and
  - one (1) functional charger for each Vehicle in the fleet with a proper electrical supply as specified above.

OTHER COMPANY RIGHTS:
- Company may improve, modify or change the design of any TSV vehicle, part or battery charger without being responsible to modify previously manufactured vehicles, parts or battery chargers.
- Company may audit and inspect the Purchaser’s facility, maintenance records and its Vehicles by Company representatives prior to approving a warranty claim and may contract with a third party to evaluate the Purchaser’s storage facilities, fuel storage tanks and/or batteries.

AUTHORITY: No Company employee, dealer, distributor or representative, or any other person, has any authority to bind Company beyond the terms of this Limited Warranty without the express written approval of the Customer Care / Warranty Department.

EMISSIONS CONTROL WARRANTY: The Vehicle may also be subject to an emissions control warranty, as required by the U.S. Environmental Protection Agency and California Air Resources Board, which is provided separately with the Vehicle.

A new and improved WESTWARD Industries

A PURPOSE BUILT STREET LEGAL COMPACT UTILITY VEHICLE

INTRODUCING

The GO•4

MEET OUR NEWEST GO-4

A compact utility vehicle designed and engineered for navigating with ease in space conscious urban locations. An ideal fit for parking patrols, police departments, dense cities, university campuses, water meter reading, airports, golf courses, and many more applications. The following pages will illustrate some of our key features and benefits of the GO-4.

The New GO•4 EV

MEET THE NEW GO-4 EV – 100% ELECTRIC!

Built on the proven GO-4 platform, our new GO-4 EV is 100% Electric! A smooth and solid 96V Lithium Ion Phosphate battery powers this compact utility vehicle. Simply charge and go for less than $1.70 per charge in most states. An ideal fit for cities with a green mandate, or for environmentally conscious establishments.
WHY CONSIDER A GO-4?

EASE OF MANEUVERING
At a mere 52.5 inches wide, the GO-4 occupies a very small footprint. Its compact size and 3-wheel platform is an ideal configuration for navigating tight locations, dense crowds, or simply minimizing impact on traffic. The outside turning radius is less than ten feet.

Although small in size, operator safety is never compromised. Its commercial grade construction maintains the highest level of protection.
TAILORED SIZE
At 72 inches tall, the cab is extremely easy for an operator to enter and exit all day long. A considerable benefit for tasks that require frequent exits such as: parking citations, park & landscape work, utility meter checking, security patrolling, and many other industrial applications.

INTELLIGENT DOOR DESIGN
The GO-4 has a unique double sliding door design. The operator may easily exit the vehicle on either side of the cab as needed. Providing a great benefit to perform required tasks without having impact on traffic or putting the operator in danger. Tasks are also performed quicker as the operator no longer needs to walk around the vehicle each time they exit. An example might be applying a parking ticket on a window.
SAFETY
A solid 2.5 inch steel roll bar chassis protects operators in the GO-4. This type of construction is typical in race cars, it is light weight yet very tough. This is a key consideration when looking at compact vehicles, as operators have the ability to easily navigate traffic, and do so at least 40 hours a week. We underline the importance of safety when selecting your compact utility vehicle.

DOOR MECHANICS
All manufactured materials used for the GO-4 are of high quality and built to last. Our sliding doors use components manufactured domestically in North America.

SAFE OPERATOR DESIGN
The below illustration shows one of the GO-4 advantages. Traffic is not disturbed while the the operator can easily exit on the safe side of the vehicle. Over head beacons can alert oncoming traffic of the parked GO-4
DEPENDABLE FLEET SERVICE
with LOW MAINTENANCE

The reliability of the GO-4 has been known to provide
upwards of 9 years or more per vehicle in fleet service.
We are proud of this fact considering many of our units
operate 40-80 hours per week all year round.

The GO-4 has been engineered for STOP and GO driving.
Our smaller engine and well built transmission handles
such driving methods well. Much larger engines may
incur premature wear and tear when challenged by very
frequent STOP and GO driving at slower speeds.

Our fuel efficient engine offers low maintenance cost
and excellent fuel economy providing great savings over
the years in service. Our parts service will soon be
online, available through all authorized Westward
dealers. A majority of our parts are manufactured in
North America.
*These are only some of the current applications for the GO-4

**Parcels Delivery**

Our van body addition has been used by customers such as NAPA aftermarket parts. This is an ideal vehicle for routes that require smaller package volumes. Our zero emissions EV is perfect for green fleets.

**Parking Enforcement**

Whether a large metropolitan city or a smaller town, the GO-4 is ideally suited for parking enforcement. In fact it was originally created with parking enforcement as a driving force behind its design.

Its narrow profile of only 52.5 inches allows it to fit in many tight locations, as well as double park next to parked cars without blocking a lane. The easy access of double sliding doors allows the operator to freely jump in and out of the vehicle from either side. The operator is not restricted to exiting on the drivers side which is typical with twin passenger vehicles. The doors can remain open while driving permitting the operator easy access while navigating. We have also outfitted units with LPR technology.

**Security & Law Enforcement**

The unique look of the GO-4 lends itself well to all sorts of patrol. Malls as large as Mall of America in Minneapolis use our GO-4 for enforcing presence and security in the sprawling parking lots and adjacent streets.

NYC police department has used GO-4’s for over 20 years to patrol events, protests, parades, and simply reach locations quicker in dense traffic. Also ideal for large sporting events or concerts. The GO-4 is street legal therefore driving on adjacent streets is not a problem.
INDUSTRIAL EQUIPMENT

Our GO-4 flat bed has been outfitted for many various applications. To simply name a couple, street line painting and insect repellent machinery. The industrial equipment is simply fastened over the rear bed. Fuel economy is upwards of 45 MPG with the gas version, leaving large savings for agencies driving many miles on a given day. The slim design of the vehicle takes up much less space than traditional vehicles. Call us to find out which application would work for you.

UNIVERSITIES & COLLEGE CAMPUSES

For over 20 years GO-4’s and now GO-4 EV’s have been ideal vehicles for Universities and College campuses. Campuses have purchased GO-4’s for a broad variety of reasons; parking citations, security presence, transporting landscaping tools, moving parcels and more.

The GO-4 EV is 100% electric and fits the green mandate of many campuses. It is also street legal which provides an advantage if travel is needed on city streets.

METER READING

Many of today’s meter readers use hand-held devices allowing them to obtain a reading without going inside the property. The meters installed outside of the home can be scanned from the street while driving by.
VAN BODY

Need an efficient transporter of goods? Consider our Van Body addition. Made of high quality aluminum, heavy duty steel hinges and door lock. The GO-4 Van body is ideal for delivery of small parcels, packages, envelopes, or even equipment. Due to its compact size, the GO-4 is well suited to operate in dense locations, or when fuel and operational efficiencies are a concern. Consider our GO-4 EV van Body for Zero emissions commuting. Please inquire for specific cargo loads.

FLAT BED

As reviewed in our Applications section, the GO-4 Flat bed is an ideal fit for industrial tasks requiring a more compact, efficient vehicle that can operate all day in a stop and go environment.

The GO-4 also works well for landscaping work in parks and campuses. Our vehicle is street legal and may commute to other areas via city streets as needed. Many other vehicles for this industry may not be permitted on city streets, they may also be restricted to low speed regulations, increasing commute times.

License Plate Recognition (LPR)

The GO-4 has previously been outfitted with LPR upon request. We work in conjunction with some of the best companies on the market. With each plate read, user-friendly in-vehicle software shows plate and vehicle images, time stamps, and more data as required.

**GO-4 ECONOMICS**

*Information on national averages is from http://www.fueleconomy.gov US department of energy. 2013 models as of August 2013 Fuel Costs ** 15,000 annual miles at current national fuel prices, August 2013. MPG varies on driving behavior and conditions, above claims are averages. Each operator may experience different fuel economies.

MPG on the GO-4 is confirmed by EPA testing. It has also been extensively tested using various methods at our factory; depending on conditions we have experienced MPG between 37-53 MPG (average 45).

We use our EPA MPG for this document.

+ Range on EVs can greatly change depending on many factors such as weather, terrain, driving habits, heat or AC utilization.

This average range can vary from 50-100 miles.

++ Average electricity costs from March 2014, www.eia.gov/electricity/monthly

+++ DOD is depth of discharge. Battery manufacturers recommend not frequently depleting a charge below 20%.
The GO-4 EV is powered by a 55 peak HP (41kW) 3 phase AC motor. 96 Volt (17.2kW) Lithium Ion Phosphate Battery pack. 110 or 220 V charging.

LED lighting is now a standard feature in the GO-4, for all exterior lighting other than the head lights. Lighting is also positioned up high on the rear cab to easily notify vehicles of frequent stopping. Additional beacons can be added.

Rear trunk with hinged and locking lid provide extra storage space.

The GO-4 can easily be outfitted with an AM/FM radio with CD player or MP3 plug in with space for two 4x4 speakers can be fitted into the ceiling cab.

A comfortable interior offers an adjustable sliding chair, tilt steering, excellent viewing conditions, and optional cup holder arm rest.

EV - Standard fully digital center dash display. Main displays are speed, AMPS, battery charge, Volts, Regeneration percentage, and odometer.

The GO-4 is powered by the latest and most efficient Hyundai / Kia power plant. 3 cylinder, 69 horsepower, 4 speed automatic transmission.

Optional AC is available, as well as a lateral thrust alarm which notifies the driver if taking a corner too quick and tight.

Additional nerf bar option for reducing impact from any potential dents and collisions.

Charges on 110V or 220V, uses a standard J1772 electric vehicle plug. 220V charges in 5-6 hours while 110V can take 10-12 hours.

As an EV user, you can have a great influence the actual range achieved. Smooth acceleration and minimized use of accessory loads, such as the heater, will greatly increase your range between battery charges. The battery is rated at 3000 charges at an 80% discharge. Lithium batteries do not like being used well under 20%.

CUSTOM VEHICLES

THERE’S NO TASK TOO BIG,
NO JOB TOO UNIQUE.

We’ve been making vehicles to get the job done for more
than 100 years. In that century-plus of manufacturing,
we’ve built more than our share of custom vehicles. Just
give us a challenge and we’ll give you a vehicle that makes
short work of it. Need an extra row of seats? Consider it
done. A cargo bed with higher walls? Gotcha. Specialized
tool rack? We’re on it. Whatever you need, we’ll find a way.
